1. INTRODUCTION

Trizoom Solutions is a leading provider of enterprise communication and customer experience management solutions. With profound expertise in providing state-of-the-art audio/video communication solutions for organizations across industry verticals. The team at Trizoom is experienced to consult, design, implement, train and support voice, video, unified communication, data networking, security and customer experience management solutions.

Trizoom Solutions brings audio visual products and solutions that seamlessly integrates audio, video, display, lighting equipment and system controls for applications such as Boardrooms, Conference Rooms, Auditoriums, Training Rooms, Cafeterias, Telepresence Rooms and much more. Our partnership with leading audio visual product manufacturers across the world, enable us to offer state-of-the-art products and solutions.

Our expertise includes all kind of AV infrastructure solutions like MCU, Gatekeeper, Provisioning Server, Firewall Traversal, Recording & Streaming, cloud based audio & video for both meeting room and mobility. Our people are certified from industry leaders like Polycom, Cisco, Avaya, Huawei, Lifesize, Crestron, Extron, AMX, etc.

We deal into all kinds of IT solutions & services like switches, routers, firewall, servers, storage, laptops, desktops, printers, security & surveillance systems, etc.

Since its establishment, Trizoom focuses on Customer Service through dedicated team of result-oriented and qualified telecom professionals with ability to understand and resolve specific technical problems and provide creative, practical and economically viable solutions to business related issues.

2. TRIZOOM SOLUTIONS: YOUR AUDIO, VISUAL & IT AUTOMATION PARTNER

The company has been supported by a group of professionals having vivid experience and wide exposure in AV & Information Technology.

The resource personnel working in the company have been consistently providing reliable support services and consultancy to a wide variety of corporate houses either in the capacity of executive or as business partner or consultant. Bottom line of the company philosophy is building a long-term business partnership with its clients where interpersonal relationship, reliability, assured quality and target oriented modern technology are the major building blocks.

It is a company where professionals from both technical and functional field group together with an objective of providing appropriate business solutions. It realizes the importance of functional knowledge and its impact in developing business solutions. We constantly strive to be a leading technology firm with profound business and functional knowledge. The key to the company's success is the maintenance of a close working relationship with the clients through ensuring the best possible solutions to their needs; to establish and maintain a thorough knowledge and understanding of client's objective and help them maximize the benefits.

We want to establish ourselves as the best choice in Audio Visual, Automation, Computing and Information Technology Services, Consultancy and Development by offering the full spectrum of services.

3. OUR MISSION & VISION

Our Mission is to achieve the reputation of a quality, high standard & reliable solution & service Provider Company in the AV & ICT industry.

Our Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.
